**THIS DOCUMENT IS SOLELY FOR THE USE OF THE PERSON WHO RECEIVED IT FROM OUR COMPANY OR FROM THE REGISTRAR. THIS DOCUMENT IS NOT TO BE REPRODUCED OR DISTRIBUTED TO ANY OTHER PERSON.**

#### **ENFORCEMENT OF CIVIL LIABILITIES**

The Company is a Public Limited (Listed) Company under the laws of India and all the Directors and all Executive Officers are residents of India. It may not be possible or may be difficult for investors to affect service of process upon the Company or these other persons outside India or to enforce against them in courts in India, judgments obtained in courts outside India. India is not a party to any international treaty in relation to the automatic recognition or enforcement of foreign judgments.

However, recognition and enforcement of foreign judgments is provided for under Sections 13, 14 and 44A of the Code of Civil Procedure, 1908, as amended (the "Civil Procedure Code"). Section 44A of the Civil Procedure Code provides that where a certified copy of a decree of any superior court (within the meaning of that section) in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, is filed before a district court in India, such decree may be executed in India as if the decree has been rendered by a district court in India. Section 44A of the Civil Procedure Code is applicable only to monetary decrees or judgments not being in the nature of amounts payable in respect of taxes or other charges of a similar nature or in respect of fines or other penalties. Section 44A of the Civil Procedure Code does not apply to arbitration awards even if such awards are enforceable as a decree or judgment. Among others, the United

Kingdom, Singapore, Hong Kong and the United Arab Emirates have been declared by the Government of India to be reciprocating territories within the meaning of Section 44A of the Civil Procedure Code.

The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code. Under Section 14 of the Civil Procedure Code, an Indian court shall, on production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction.

A judgment of a court in any non-reciprocating territory, such as the United States, may be enforced in India only by a suit upon the judgment subject to Section 13 of the Civil Procedure Code, and not by proceedings in execution. Section 13 of the Civil Procedure Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), states that a foreign judgment shall be conclusive as to any matter directly adjudicated upon between the same parties or between parties under whom they or any of them claim litigating under the same title except where:

- The judgment has not been pronounced by a court of competent jurisdiction.
- The judgment has not been given on the merits of the case.
- The judgment appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable.
- The proceedings in which the judgment was obtained are opposed to natural justice.
- The judgment has been obtained by fraud; and/or
- The judgment sustains a claim founded on a breach of any law in force in India.

A suit to enforce a foreign judgment must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the Reserve Bank of India to repatriate any amount recovered pursuant to execution of such judgment. Any judgment in a foreign currency would be converted into Rupees on the date of such judgment and not on the date of payment and any such amount may be subject to income tax in accordance with applicable laws. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

We compute and disclose such Non-GAAP Financial Measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of other companies in our industry. Further, these Non-GAAP Financial Measures are not a measurement of our financial performance or liquidity under Ind AS, GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an 15 indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, GAAP, IFRS or US GAAP. Other companies may calculate these Non-GAAP Financial Measures differently from us, limiting its usefulness as a comparative measure. However, these Non-GAAP Financial Measures may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies. Accordingly, such Non-GAAP Financial Measures have important limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our financial position or results of operations as reported under GAAP.

Any of the following risks as well as other risks and uncertainties discussed in this Offer Document could have a material adverse effect on our business, financial condition and results of operations and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or part of your investment. In addition, the risks set out in this Offer Document may not be exhaustive and additional risks and uncertainties, not presently known to us, or which we currently deem immaterial, may arise or become material in the future. ### INTERNAL RISK FACTORS

#### A. BUSINESS AND FINANCIAL RELATED RISK

##### 1. *Any significant increase in the prices of raw cotton or disruption in its availability may adversely affect our business, results of operations, financial condition and cash flows.*

Raw cotton is one of the primary raw materials used in our industry and constitutes a significant portion of the overall cost of production. The prices and availability of raw cotton are highly volatile and are influenced by numerous factors beyond our control, including domestic and international demand and supply conditions, fluctuations in cotton production, climatic and weather conditions, monsoon patterns, pest infestations, government procurement policies, minimum support price ("MSP") announcements, export-import regulations, international commodity prices, inflation, transportation and logistics constraints, geopolitical developments, foreign exchange fluctuations, and other macroeconomic factors.

Any significant increase in the prices of raw cotton may increase our cost of production. There can be no assurance that we will be able to pass on such increase in raw material costs to our customers fully or in a timely manner due to competitive market conditions, pricing pressures, existing contractual obligations, changes in customer demand, or other commercial considerations. Inability to pass on increased raw material costs may adversely affect our operating margins, profitability, cash flows, and results of operations.

Further, volatility in raw cotton prices may also adversely affect our inventory valuation, working capital requirements, procurement planning, and overall operational efficiency. If we are unable to effectively manage

fluctuations in raw material prices or ensure uninterrupted supply of quality raw cotton at commercially viable prices, our business, financial condition, and future prospects may be materially and adversely affected.

**2. *Any non-availability or shortage of quality cotton and adequate quantities of cotton may adversely affect our product quality, production capabilities, business operations and results of operations.***

The cotton industry is dependent upon agricultural output, which is inherently vulnerable to adverse weather conditions such as droughts, floods, cyclones, irregular rainfall, and other natural calamities. Any reduction in cotton crop yield or deterioration in quality due to unfavorable climatic conditions may result in shortage of supply of raw cotton. Further, outbreaks of pests or crop diseases in cotton-producing regions may also adversely impact the quantity and quality of cotton available in the market and in these circumstances, we may face the adverse effect in our product quality, production capabilities, business operations and results of operations. We didn't face this kind of circumstances in the past.

**3. *Our business is subject to seasonal volatility, which may contribute to fluctuations in our results of operations and financial condition.***

Our industry is seasonal in nature. The period during which our business may experience higher revenues varies from state to state, and depends principally on the financing requirements of our customers. For instance, depending upon the geography, every harvest season results in a decrease in the number of agriculture loans availed by our customers. Accordingly, our revenue in one quarter may not accurately reflect the revenue trend for the whole Financial Year. The seasonality and cyclicity of our industry, and the financial services industry, may cause fluctuations in our results of operations and financial condition.

**4. *Our products are being manufactured from our manufacturing facilities located in Jalna.***

We manufacture our products from our manufacturing facilities in Jalna, which caters to our domestic and export demand. Any disruption in the operations due to supply of power, fire outages or industrial accidents at this unit could hamper or delay our ability to continue production and servicing. Any disruption or suspension in the production process in this facility can significantly impact our ability to service customer needs and relation with our customers and have a material adverse effect on our business, revenues, reputation, results of operation and financial condition.

**5. *One of our Director Mr. Ramesh Gopikishan Mundada has not provided consent in relation to this Rights Issue and disclosures pertaining thereto.***

As of the date of the Draft Letter of Offer, Mr. Ramesh Gopikishan Mundada, the Directors of our Company has not provided certain consent, confirmation and declaration sought by the Company in connection with the proposed Rights Issue. Notwithstanding the same, the Company has included the name and designation of Mr. Ramesh Gopikishan Mundada in the Draft Letter of Offer and other Issue-related documents, wherever required under the applicable provisions of law.

The Company has obtained a legal opinion from Adv. Mahesh S. Dhannawat, vide later dated 06/06/2026, which confirms that the non-receipt of such consent from one Director does not affect the eligibility of the Company to undertake and complete the Rights Issue under the applicable provisions of the Companies Act, 2013, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, and other applicable laws.

Accordingly, the proposed Rights Issue shall proceed and will not be adversely affected solely due to the non-receipt of consent from the aforesaid Director.

**6. *Our Company does not have any formal long-term arrangements with the suppliers and customers. Any significant variation in the supply & demand may adversely affect the operations and profitability of our Company***

We are, to a major extent, dependent on external suppliers for our raw materials requirements and we do not have any formal long-term arrangements with our suppliers and customers which obliges them to maintain their business with us. Our ability to maintain close and satisfactory relationships with our suppliers & customers and to consistently provide processing services that meets customer's requirements is important to our business. In the event, our customer terminates the existing contracts it may affect our Company's business, results of

operations and revenues. Also, there is no assurance that the customers and suppliers will continue to supply raw materials to us and these customers will continue to purchase products from us. This could impact the financial performance of our Company and affect our financial condition.

**7. *We face substantial competition in the textile business, both from Indian and international companies, which may adversely affect our revenues***

We face significant competition from existing players and potential entrants in the Indian textile industry. The Indian textile industry is highly competitive in man-made fibres segment. We will face competition mainly from large vertically integrated and diversified companies as well as new companies, particularly in China and Indonesia. Some of our international competitors are larger than us and have greater financial resources. Increased competition could result in price reductions, decreased sales, lower profit margins or losses in market share, any of which could have an adverse effect on our business, results of operations and financial condition.

**8. *The cost at which we are able to obtain for the yarns that we produce depend largely on prevailing market prices of raw material like cotton bales. Any decrease in yarn prices may adversely affect our profitability.***

The wholesale price of cotton has a significant impact on our profits. Cotton is subject to price fluctuations resulting from weather, natural disasters, domestic and foreign trade policies, shifts in supply and demand and other factors beyond our control. As a result, any prolonged decrease in cotton prices could have a material adverse effect on our Company and our results of operations.

**9. *We have had negative cash flows in the past and may continue to have negative cash flows in the future.***

Our cash flows from operating, investing and financing activities have varied across the periods presented due to changes in our business operations, working capital requirements, capital expenditure programmes and financing arrangements. The following table sets forth our consolidated cash flows for the periods indicated:

(in lakhs)

Particulars	As on March 31		
	2026	2025	2024
Net Cash Flow from / (used in) Operating Activities.	615.08	946.15	(840.42)
Net Cash Flow from / (used in) Investing Activities.	(17.51)	(505.06)	(105.62)
Net Cash Flow from / (used in) Financing Activities	(635.26)	(471.20)	1011.05

Negative cash flows from operating activities in Fiscal 2024 were primarily attributable to changes in working capital requirements and business operations during the year. Negative cash flows from investing activities primarily reflect expenditure incurred towards acquisition of capital assets and other long-term investments. Negative cash flows from financing activities in Fiscal 2026 and Fiscal 2025 were mainly due to repayment of borrowings and other financing obligations, while positive cash flows from financing activities in Fiscal 2024 were primarily attributable to borrowings and infusion of funds.

Although we have generated positive cash flows from operating activities in Fiscal 2026 and Fiscal 2025, there can be no assurance that we will continue to do so in future periods. Our cash flows may be affected by various factors, including changes in operating performance, working capital requirements, market conditions, capital expenditure plans and financing arrangements. Any inability to generate adequate cash flows from operations or to obtain additional financing on acceptable terms may adversely affect our liquidity, financial condition, ability to meet obligations and future growth prospects.

**10. *Our revenues are significantly dependent upon sales of our main products that are cotton bales and yarn.***

Our core business is the manufacture of yarn and we have an existing open end and ring spinning unit. Consequently, our income is significantly dependent on sales of the cotton bales and yarn and over the years, such sales have emerged as the largest single contributor to our revenue and business. Our continued reliance on sales of our products for a significant portion of our revenue exposes us to risks, including the potential reduction in the demand for such products in the future; increased competition from domestic and regional manufacturers; cost-effective technology; fluctuations in the price and availability of the raw materials; changes in regulations and import duties; and the cyclical nature of our customers' businesses. One or more such reasons may affect our revenues and income from sales of our products and thereby adversely affect our business, profitability, cash flows and results of operations.

**11. *Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances. A significant disruption at any of our manufacturing facilities may adversely affect our production schedules, costs, revenue and ability to meet customer demand.***

Our business involves manufacturing processes that can be potentially dangerous to our employees. An accident may result in loss of life, destruction of property or equipment, manufacturing or delivery delays, or may lead to suspension of our operations and/or imposition of liabilities.

While we believe we may maintain adequate insurance, interruptions in production as a result of an accident may also increase our costs and reduce our revenue, and may require us to make substantial capital expenditures to remedy the situation or to defend litigation that we or our senior management may become involved in as a result, which may negatively affect our profitability, business, financial condition, results of operations and prospects. Any negative publicity associated therewith, may have a negative effect on our business, financial condition, results of operations and prospects.

**12. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.***

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected. However, our Company has not experienced any material instance of employee misconduct or errors in the past which has adversely affected our business operations, financial condition or reputation.

**13. *Breakdown of machinery and/or equipment used for the purpose of manufacturing process***

Any breakdown or defect in the machinery and/or the equipment used for the purpose of our manufacturing process may delay the production process as a whole and result in missing deadlines in delivery of product if we are able to repair the machines or replace it within relevant timelines. Any such delays may have an adverse effect on the business of the Company.

**14. *Our Company is dependent on third party transportation providers for the delivery of raw materials/ finished products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations***

Our Company uses third party transportation providers for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition to raw materials/ finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

**15. *We may in the future face potential liabilities from lawsuits or claims by consumers including product liability claims.***

Since we operate in the fabric and textiles manufacturing sector, we may face the risk of potential legal proceedings and claims being brought against us by our customers/wholesaler for any defective fabric sold or any dissatisfaction caused to them. In the event that we are found to be liable for any product liability claim, we could be required to pay substantial monetary damages. The compensation awarded to us by the insurance company may not be adequate to compensate the claimants. Further, even if we successfully defend ourselves against a

claim, or successfully claim back compensation from others, we may need to spend a substantial amount of time and money in defending such a claim and in seeking compensation, and our reputation could suffer.

**16. *We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.***

The market for our products is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as quality of products, distribution network, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

**17. *Our Company has not entered into any binding agreements with dealers for distributing its products in the market.***

Although, our Company believes that it maintains good relations with the existing brokers, there can be no assurance that the dealers would not fail to fulfill their obligations. In such an event, our Company may be unable to enforce such obligations or succeed in a claim against them for damages. This may have a material adverse effect on our business and financial condition as our Company may not be able to find replacements on time. Inherent ingredients of our business are trust, understanding and relationships with our associates including customers and vendors.

**18. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments. Modernization and technology up gradation is essential to reduce costs and increase the output.***

Our manufacturing technology may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. Although we believe that we have installed upgraded technology in form of high-speed rapier Sulzer looms suitable for fabrics manufacturing and that the chances of a technological innovation are not very high in our sector we shall continue to strive to keep our technology updated. In case of a new found technology in the fabric manufacturing business, we may be required to implement new technology employed by us. Further, the cost in upgrading our technology is significant which could substantially affect our finances and operations.

**19. *We have not entered into any technical support service for the maintenance and smooth functioning of our equipment's and machineries, which may affect our performance.***

Our manufacturing processes involve daily use of technical equipment's and machineries. They require periodic maintenance checks and technical support in an event of technical breakdown or malfunctioning. Our company has not entered into any technical support service agreements with any competent third party. Our failure to reduce the downtime in case such events occur may adversely affect our productivity, business and results of operations.

**20. *There may be potential conflict of interests between our company and other venture or enterprises promoted by our promoters or directors.***

The main objects of our Company and our Group Entity, Gayatri Ginning and Pressing Private Limited allow them to have same/similar to business as carried out by our Company. Further we have not executed any Non-Compete Agreement with our Group Entity undertaking not to engage in businesses similar to that of our Company. Failure to adhere to they may have an adverse effect on our business operations and financial conditions.

**21. *Our business is dependent on the adequate and uninterrupted supply of electrical power and water at a reasonable cost. Failure on account of unavailability of electrical power and water may restrict us in utilizing our full capacity and, hence, may impact our business and results of operation.***

Adequate and cost-effective supply of electrical power is critical to our operations, which entails significant consumption of electrical power. Currently, we source of our power requirements from the State Electricity Board. There can be no assurance that electricity supplied by them will be sufficient to meet our requirements or that we

will be able to procure adequate and interrupted power supply in the future at a reasonable cost. Further, if the per unit cost of electricity is increased by the state electricity boards, our power costs will increase and it may not be possible to pass on any increase in our power costs to our customers, which may adversely affect our profit margins.

**22. *Any changes in regulations or applicable government incentives would adversely affect the Company's operations and growth prospects.***

The GoI has provided several incentives to the textile sector, from which our Company may benefit, including the TUFs interest and capital subsidies. These incentives could be modified or removed at any time, or new regulations could be introduced applicable to our Company's business, which could adversely affect our Company's operations and financial results.

Our Company is also subject to various regulations and textile policies, primarily in India. Our Company's business and prospects could be adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which would have a material adverse effect on the Company's operations and financial results.

**23. *We are dependent on our Directors and key managerial personnel of our Company for success whose loss could seriously impair the ability to continue to manage and expand business efficiently***

Our Directors and key managerial personnel collectively have vast experience in the industry and are difficult to replace. They provide expertise, which enables us to make well informed decisions in relation to our business and our future prospects. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of our Directors and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. Also, the loss of any of the management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to expand our business.

Further, our future performance will depend upon the skills, efforts, expertise, and continued services of these persons and our ability to attract and retain qualified senior and mid-level managers. The loss of their services or those of any other members of management could impair our ability to implement our strategy and may have a material adverse effect on our business, financial condition and results of operations.

**24. *We will enter into certain related party transactions and may continue to do so.***

We will enter into related party transactions with our Promoters, its group members/ entities, and Directors. While we believe that all such transactions will be conducted on arm's length basis, however it is difficult to ascertain whether more favorable terms will be achieved if such transactions be entered with unrelated parties. Furthermore, it is likely that we will continue to enter into related party transactions in the near future as well. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. We are in compliance with Related Party Transactions as per the provisions of the Companies Act, 2013, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and other applicable laws.

**B. LEGAL RELATED RISK**

**25. *There are outstanding litigations by and against our Company which if determined against us, could adversely impact financial conditions.***

There are outstanding litigations by and against our Company. The details of this legal proceeding are given below in the following table:

(Rs. in Lakhs)

Particular	Criminal Matters	Civil Matters	Proceedings involving Securities and Economic Laws	Other proceedings involving our Company based on Materiality Policy of our Company	Tax Proceedings	Amount Involved

Litigation by Company	-	-	-	-	6	152.66

- 26. If we are not able to obtain, renew or maintain the statutory and regulatory permits and approvals required to operate our business it may have a material adverse effect on our business.**

We require certain statutory and regulatory permits, licenses and approvals to operate our business. Though we believe that we have obtained other permits and licenses which are adequate to run our business, we cannot assure that there is no other statutory/regulatory requirement which we are required to comply with. Also, few of our approvals are in the name of our previous name which is not yet changed. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business

### C. RIGHTS ISSUE RELATED RISK

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case the Rights Entitlements do not get credited in time, or in case of On Market Renunciation, such Renouncee will not be able to apply in the Issue with respect to such Rights Entitlements.

opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in the account of the IEPF authority; or (b) the demat accounts of the Eligible Equity Shareholder which are frozen or the Equity Shares which are lying in the unclaimed suspense account (including those pursuant to Regulation 39 of the SEBI Listing Regulations) or details of which are unavailable with our Company or with the Registrar on the Record Date; or (c) Equity Shares held by Eligible Equity Shareholders holding Equity Shares in physical form as on Record Date where details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings, if any; or (f) non-institutional equity shareholders in the United States.

**29. *We cannot guarantee that the Equity Shares issued under this Issue will be listed on the Stock Exchange in a timely manner, if at all.***

In accordance with Indian law and practice, after our Board passes the resolution to allot the Equity Shares but prior to crediting such Equity Shares into the Depository Participant accounts of the investors, we are required to apply to the Stock Exchange for final approval for listing and trading of the Equity Shares. There could be a failure or delay in obtaining these approvals from the Stock Exchange, which in turn could delay the listing of the Equity Shares on the Stock Exchange. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period. Any failure or delay in obtaining these approvals would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, may not be indicative of the prices at which the Equity Shares will trade in the future.

**30. *Any future issuance of Equity Shares by us or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares.***

Any future issuance of our Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may also adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. There can be no assurance that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or otherwise encumber their Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

**31. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant's decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

**32. *Overseas shareholders may not be able to participate in the Company's future rights offerings or certain other equity issues.***

If our Company offers or causes to be offered to holders of its Equity Shares rights to subscribe for additional Equity Shares or any right of any other nature, our Company will have discretion as to the procedure to be followed in making such rights available to holders of the Equity Shares or in disposing of such rights for the benefit of such holders and making the net proceeds available to such holders. For instance, our Company may not offer such rights to the holders of Equity Shares who have a registered address in the United States unless: (i) a registration statement is in effect, if a registration statement under the US Securities Act is required in order for the Company to offer such rights to holders and sell the securities represented by such rights; or (ii) the offering and sale of such rights or the underlying securities to such holders are exempt from registration under the provisions of the US Securities Act. Our Company has no obligation to prepare or file any registration statement. Accordingly, shareholders who have a registered address in the United States may be unable to participate in future rights offerings and may experience a dilution in their holdings as a result.

**33. *The Issue Price of the Rights Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.***

The Issue Price of the Rights Equity Shares will be determined by our Company. This price may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to resell your Equity Shares at or above the Issue Price. There can be no assurance that an active trading market for the Equity Shares will be sustained after this Issue, or that the price at which the Equity Shares have historically traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

**34. *After the Issue, the price of the Equity Shares may be volatile.***

The Issue Price may not necessarily be indicative of the market price of the Equity Shares after the Issue is completed. The trading price of the Equity Shares may fluctuate after the Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian financial services industry and the perception in the market about investments in the financial services industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets in general experience a loss of investor confidence, the trading price of the Equity Shares could decline for reasons unrelated to our business, financial condition, or results of operations. The trading price of the Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Further, the trading price of the Equity Shares have been volatile in the past.

**35. *No market for the Right Entitlements may develop and the price of the Right Entitlements may be volatile.***

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others.

Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse effect on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchange, the trading of Rights Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

We will not distribute the Draft Letter of Offer, Application Form and Rights Entitlement Letter (the "Issue Materials") to overseas Shareholders who have not provided an address in India for service of documents. We

will dispatch the Issue Materials to Shareholders who have provided an address in India for service of documents. We will not distribute the Issue Materials to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. In the case that Eligible Equity Shareholders have provided their valid e-mail addresses, the Draft Letter of Offer will be sent only to their valid e-mail address and in the case that such Eligible Equity Shareholders have not provided their e-mail address, then the Draft Letter of Offer will be dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act and the rules made thereunder with respect to distribution of the Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. Therefore, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

**36. *Investors may not receive the Equity Shares subscribed in this Issue until two days after the date on which this Issue closes, which will subject them to market risk.***

Allotment of Equity Shares under this Issue may not result in immediate credit to investors' demat accounts. Typically, the credit occurs within approximately two days from the Issue Closing Date. Investors may commence trading these Equity Shares only after receipt of both listing and trading approval. There is no assurance that the allotted Equity Shares will be credited to investors' demat accounts within this period, or that trading will commence on time, exposing investors to market risk during this interval.

Similarly, investors may trade Rights Equity Shares Allotted to them only after these shares are credited to their demat account and listing and trading permissions have been granted. As the Equity Shares are listed on the Stock Exchange, investors will be subject to market risk from the date of payment for the Rights Equity Shares until trading approval is received. There is no assurance that Rights Equity Shares will be credited to the demat account of investors or that trading will begin within the expected timeframe.

**37. *SEBI operates an index-based market-wide circuit breaker. Any operation of a circuit breaker may adversely affect a shareholder's ability to sell, or the price at which it can sell, our Equity Shares at a particular point in time.***

We are subject to an index-based market-wide circuit breaker generally imposed by SEBI on Indian stock exchange. This may be triggered by an extremely high degree of volatility in the market activity (among other things). Due to the existence of this circuit breaker, there can be no assurance that shareholders will be able to sell our Equity Shares at their preferred price or at all at any particular point in time.

**38. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**39. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

**40. *Our Company will not distribute the Draft Letter of Offer and other Issue Materials to overseas shareholders who have not provided an address in India for service of documents.***

We will not distribute the Issue Material to the shareholders who have not provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in various overseas jurisdictions. In the case that Eligible Equity Shareholders have provided their valid e-mail address, the Draft Letter of Offer will be sent only to their valid e-mail address and in the case that such Eligible Equity Shareholders have not provided their e-mail address, then the Draft Letter of Offer will be dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

However, the Companies Act requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act and the rules thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdiction. While our Company will request its shareholders to provide an address in India for the purposes of distribution of Issue Materials, our Company cannot assure that the regulator would not adopt a different view with respect to compliance with the Companies Act and may subject our Company to fines or penalties.

**41. *The Equity Shares may experience price and volume fluctuations.***

The market price of the Equity Shares can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian finance and lending sector, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies, and significant developments in India's fiscal regulations. In addition, the stock exchange may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance also affect the price of the Equity Shares. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

**42. *Restrictions on daily movements in the trading price of our Equity Shares may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.***

Stock Exchange may impose restrictions on the movements in trading price of our Equity Shares. Stock Exchange are not required to inform us of such restrictions, and they may change without our knowledge. In the event such

restrictions are imposed, there can be no assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

**43. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form may lapse in case they fail to furnish the details of their demat account to the Registrar.***

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI ICDR Master Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialized form.

**44. *In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects of this Issue which would in turn affect our revenues and results of operations.***

The funds that we receive would be utilized for the objects of the Issue as has been stated in the section “**Objects of the Issue**” on page no. 47 of the DLOF. The proposed schedule of implementation of the objects of the Issue is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue this may affect our revenues and results of operations.

**45. *We have not identified any alternate source of raising the funds required for our “Objects of the Issue”. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.***

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds may require us to borrow the funds on unfavourable terms, both of which scenarios may affect the business operation and financial performance of the company.

**46. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.***

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

**47. *Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

**48. *Fractional Entitlements***

The Rights Entitlements and allotment of Equity Shares pursuant to the Rights Issue shall be made in accordance with the provisions of the Companies Act, 2013, the SEBI ICDR Regulations and other applicable laws. In cases where the entitlement of Equity Shares results in fractional entitlements, such fractions shall be ignored and the Company shall not allot fractional Equity Shares.

All fractional entitlements shall be aggregated and the resultant Equity Shares may be disposed of by the Company in such manner as it may deem fit, including for the benefit of the Company, in compliance with applicable laws.

Accordingly, shareholders entitled to fractional entitlements may not receive the exact proportion of Equity Shares to which they would otherwise be entitled, which may result in dilution of their shareholding and potential loss of value.

## **EXTERNAL RISK FACTORS**

### ***49. Global Economic and Financial Market Volatility***

The Indian economy and financial markets are influenced by global economic and market conditions, including those in the United States, Europe and other emerging economies. Any deterioration in global economic conditions or investor confidence may increase market volatility and adversely impact India.

Geopolitical tensions, including conflicts such as Russia–Ukraine and Israel–Palestine, along with sanctions and trade restrictions, have contributed to global economic uncertainty, volatility in commodity prices and increased costs of raw materials, energy and transportation. Additionally, rising global inflation and interest rates may further impact economic stability.

Changes in international trade policies, including tariffs, duties and other trade barriers, may disrupt cross-border trade, increase costs and lead to retaliatory actions or trade restrictions, adversely affecting demand and business operations. Further, developments in key trading partner economies, including China, may impact India's trade dynamics.

Global financial markets have experienced periods of volatility, liquidity disruptions and corrections. Any prolonged or significant disruption may restrict access to capital and reduce market liquidity.

Any of the above factors may have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our Equity Shares.

### ***50. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, change in regulatory framework, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism.

### ***51. Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance***

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

### ***52. Our 100% Revenue is derived from business in India and a decrease in economic growth in India could cause our business to suffer.***

We derive 100% of our revenue from our operations in India and, consequently, our performance and the quality and growth of our business are dependent on the health of the economy of India. However, the Indian economy may be adversely affected by factors such as adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities or interest rates changes, which may also affect the microfinance industry. Any such factor may contribute to a decrease in economic growth in India which could adversely impact our business and financial performance.

### ***53. We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.***

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for our existing or future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

**54. *Foreign investors are subject to foreign investment restrictions under Indian law.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection or a tax clearance certificate from the income tax authority. We cannot assure you that any required approval from the RBI or any other Government agency can be obtained on any particular terms or at all.

**55. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.***

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

**56. *The ability of Indian companies to raise foreign capital may be constrained by Indian law.***

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

**57. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.***

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

**58. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.***

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs of doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

**59. *Natural calamities could have a negative impact on the Indian economy and cause our business to suffer.***

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal

rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

***60. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.***

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well as the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“FDI”) and approval from the Government of India will not be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“DPIIT”), Ministry of Finance, Department of Economic Affairs through the FDI Circular 2020 (defined below).

The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“FDI Circular 2020”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as at October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under the FEMA Rules will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules.

Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that

- (i) The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations;
- (ii) The non- resident shareholding is within the sectoral limits under the FDI Policy; and
- (iii) The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.
